

1.2 Point of use water treatments (PoUWTs)

Point-of-use water treatments (PoUWTs) are cost-effective methods to reduce water-associated disease burden. ² The P&G Purifier of Water is a scientifically proven and widely used PoUWT; it has provided over 6 billion liters of potable water in more than 65 countries for both disaster relief and community development programs. As a combination flocculent – disinfectant technology, P&G Purifier of Water uses an approach similar to municipal water treatment facilities (flocculation, sedimentation, and disinfection) to eliminate 99.9% of pathogenic microorganisms as well as suspended matter contributing to turbidity.

Two 12-sachet strips of P&G Purifier of Water (shown below) can supply a family with enough potable water for approximately 1 month.

Several advantages make the P&G sachets an attractive option for use in emergency situations. Notably, their use great reduces burdens of transportation and cost. Each 4-gram sachet of P&G Purifier of Water costs 1 MXN and can purify 10L of water—enough to supply an entire household for one day. Other benefits include the product's stability and long shelf-life (3 years) allowing it to be stockpiled in areas of frequent disasters, classification as non-hazardous material allowing for air shipment, robustness to treat even very turbid surface waters, and acceptability to users because of the visual improvement of

P&G Purifier of Water (formerly known as PURTM) is a powdered mixture that removes pathogenic microorganisms and suspended matter such as dirt, allowing the purification of contaminated water into safe drinking water.

2.1. Ingredients and Mechanism

P&G Purifier of Water contains two main ingredients:

- Calcium hypochlorite: a chlorine disinfectant for killing bacteria; and
- Ferric sulfate: an iron salt coagulant for removing suspended matter, protozoa, and viruses.

The powder also contains a buffer (clay and polymer) to provide thorough coagulation and flocculation. All of these ingredients are used by municipal systems in Mexico, the United States, and other nations around the world. The difference is that the P&G Purifier of Water provides these ingredients at the level of the household, rather than a centralized treatment facility.

2.2. Safety and Efficacy

P&G Purifier of Water is safe for long-term use by the entire family including infants. It is considered a 'protective' technology by the World Health Organization (WHO) and produces a water quality that meets WHO guidelines. It was approved by COFEPRIS in 2011 (**Appendix A**).

Field and laboratory studies have proven P&G Purifier of Water to remove: 4,5

- 99.9999% of bacteria, including those that cause cholera and typhoid fever;
- 99.99% of intestinal viruses, including those that cause hepatitis A; and
- 99.9% of protozoa, including Giardia and Cryptosporidium.

Numerous randomized, controlled health intervention studies conducted by the U.S. Centers for Disease Control and Prevention (CDC) and Johns Hopkins University have also shown P&G Purifier of Water to reduce diarrheal disease incidence by up to 90%, with an average of about 50%. ^{6, 7, 8, 9, 10} Furthermore, P&G Purifier of Water can reduce levels of heavy metals (i.e. arsenic, lead) and chemical contaminants (i.e. pesticides) from water. ⁵ More details about the efficacy of P&G Purifier of Water are provided on the following page.

Since the 260 unit Tzolkin is the keeper of the 13:20 frequency, its sacred math is naturally 13x20=260, the power of 13 is found in the movement of the 13 tones of creation (see the return of 13) in the wavespell, and the power of 20 is found in the measure of the 20 day

vinal cycle of the Solar Tribes. These two cycles are the most essential and basic patterns to begin tracking when using the calendar system.

Tzolkin is a teacher and guide of the mathematical and energetic principles of the universe. It has been called "one of the greatest jewels of human talent of all ages." It is a cosmic matrix that embodies the sacred geometries of the 64 DNA codons and the I-Ching workings. One of its main purposes is to activate the full realization of human potential. This is accomplished by aligning the 64 DNA codes into conscious, telepathic entrainment with the correct timing frequency of the universal whole.

Tzolkin speaks the language of the cycles of 'Hunab Ku'. Hunab Ku is the Mayan term for "the Principle of intelligent

Principle of energy pervades entire intelligen that

The Hunab Ku universe." The One Giver of Movement and Measure,

The Tzolkin is a radial matrix. Radial means that it is a matrix of non linear energy flows that radiate out from a center. The central column of the Tzolkin is symbolic of the void, the field of pure potentiality and infinite possibility. Although the Tzolkin's image appears to be on a linear grid, as you study the deeper intricacies of the matrix, you'll find a very different result. Welcome to the true nature of time!

The number 260 is sacred for it is equal to the human gestation period of approximately nine months(9 moons). We perceive and feel each specific tzolkin cycle as our own gestation period, therefore we are birthed anew as each cycle closes and begins again, always at a higher level on the natural spiral of life and evolution.

Each square on the Tzolkin is a combination of a particular one of the 13 tones of Creation and one of the 20 Solar Tribes. This specific combination manifests a unique access point into the movement and measure of 4th dimensional time, depending on which tone & tribe are occurring.

The Maya used this sacred calendar to track the exact movements of all of the heavenly bodies. The number 260 is like a cosmic common denominator which unifies all orbiting bodies. For example, almost all eclipses relate by a number of days who's factor is 260, and one synodic revolution of the red planet Mars is 780 days which is exactly 3x 260=780.

There are 52 black squares in the Tzolkin, Each representing a heightened energetic pattern. These are known as *galactic activation portals*. The configuration of the 'Loom' as it is called, closely resembles the DNA Helix of the human genetic structure.

Pacal Votan's Samadhi 1352 "Universal History of the Messengers"

The main body of the crystal is a six-faceted lattice.

Each end of the double-terminated crystal has six more facets each. (twelve in all)

There are a total of 18 facets to the crystal; this is a maximum compression of the eighteen-dimensional universe. The crystal is the living record of Cosmic History.

Pacal Votan's History of the Messengers is harmonic synchronic history - rather than Babylonian linear history.

It is a history rehearsed by the crystal.

HOW TO READ THE THIRTEEN MOON CALENDAR

- I. Gregorian calendar date. (example shown: 7/26).
- Name of the Moon (month) (example shown: Magnetic Moon).
- Radial Plasma, which is the day of the week (example shown: Dali, see page 15).
- 4. Day of the Moon.
- 5. Galactic Signature, a combination of Solar Seal and Galactic Tone (see page 15). From this you cast the Daily Code Spell (see page 18). The Kin number shows what day it is on the Tzolkin Harmonic Module (shown on the back of this booklet).
- The green days (5) are called Galactic Activation Portals days with a high flow of galactic energies.

Learning the synchronic codes of time gives our lives an entirely new context by which to live. In the synchronic order, the simplest level is the 20 seals, the 13 tones and the 28-day cycle. This is where we start. We can build from there to begin to see a richness of organization of time that we have not known before.

Each day, note the daily solar seal and galactic tone. Find the guide and daily affirmation in this little booklet (pages 18-20). Meditate on this. Then locate the daily solar seal on the Planet Holon, and also on your finger or toe. Locate the tone of the day in one of the 13 articulations of your body (page 15). Find the daily kin number on the Tzolkin/Harmonic Module on the back of this booklet.

Note the 52 shaded squares—these are known as galactic activation portals, and represent extra high frequency days. To learn more about the synchronic codes see the *Star Traveler's 13 Moon Almanac of Synchronicity*, available at www.lawoftime.org.

WHY USE THE THIRTEEN MOON CALENDAR?

A calendar is a template of time. Daily use of the 13 Moon/28-day calendar raises our frequency out of the artificial matrix and helps reorient our mind toward a higher reality. The changeover of the aeons has everything to do with shifting timing frequencies, and thus, renewing our minds. To change our mental state or quality of thoughts, we must first change our vibrational frequency.

The significance of the I3 Moon calendar does not lie in its visible surface, but rather in the fact that it is a threshold and a door that connects us to the vast web of synchronicity that underlies all manifestations. Daily use of the I3 Moon calendar increases incidences of synchronicity by deepening your intuitive awareness of the interconnectedness of people and events.

The 13 Moon/28-day calendar represents a harmonic timespace matrix. It takes the moon 28 days to orbit the Earth; it makes this orbit 13 times each year. The standard of measure is the 28-day cycle, called a moon, because it is the median between the 29.5-day synodic cycle of the moon (new moon to new moon) and the 27.1-day sidereal cycle of the moon. Hence, it is a measure of Earth's solar orbit using the 28-day lunar standard.

This creates a perfect orbital measure of 13 moons of 28 days, totaling 364 days, or 52 perfect weeks of 7 days each. Because the 365th day is no day of the moon or week at all, it is known as the "Day out of Time"—a day to celebrate peace through culture and time is art!

WHAT IS THE LAW OF TIME? 3D AND 4D TIME

The Law of Time is a universal law and principle. It states that time is the factor that synchronizes everything in the universe. In other words we all move through our life and we sometimes experience ourselves as "having it together" and we sometimes experience ourselves as "not having it together." When we are "together" everything is synchronized; this is when we are in "synch" with the Law of Time. This is natural law.

As a purely fourth-dimensional construct, the synchronic order can be understood as being etheric, like a dream, or a highly structured element of the imaginal realm. This is not the same as molecular structures and dimensions of space that define the third dimension.

The third dimension is coordinated by constructs of linear time, inclusive of constructs of duration. In fourth-dimensional time, constructs of duration have meaning only insomuch as they are coordinated by the harmonic codes of the synchronic order. We greatly limit our consciousness by strictly following linear constructs of time.

The traditional Julian/Gregorian calendar is an example of a construct of duration in linear time. It corresponds to the duration of the cycle of the orbit of Earth around the sun. However, its patterns do not fully correspond to a harmonic order. This calendar has 52 weeks, a number that conforms to a harmonic frequency $(7 \times 52 = 364 = 13 \times 28)$, but the order of the weeks do not conform to the number of days in each of the 12 months (months of 28, sometimes 29, 30 or 31 days).

These irregularities of shifting order of days of the weeks and irregular order of days per month have long term effects on the mind once they are accepted as normal. On top of this the names of the months are irrational (September, the ninth month, means "7", October, the tenth month means "8", etc.). The subconscious and conscious minds register

these irregularities as "normal", and consequently the society becomes unconsciously locked into self-defeating patterns of irresolvable irregularity and irrationality.

Add this calendar to the mechanical 60-minute clock and it creates an artificial timing program: 12:60 (12 months, 60 minutes). Living in artificial time disconnects us both as a species and individually from our true nature.

The 13:20 frequency is a bridge to assist our emergence from the dense space of consciousness to the magnificent simplicity and magic of natural time. The 13 Moon/28-day calendar is a cosmic mechanism that creates a frequency which matches the solar frequency. The 13:28 frequency locks in perfectly with the 13:20 frequency to create a 52-year solar galactic loop, which is the measure of Sirius B in its orbit around Sirius A. The beginning date, July 26, corresponds to the heliacal rising of Sirius.

Keep in mind that the 365-day matrix and the 260-day matrix are the two main programs you are tracking simultaneously. Note: The 260-kin (day) cycle correlated with the 365-day cycle of the 13 Moon calendar creates a cycle of 18,980 days or 52 years during which no two days repeat. This is called the Solar-Galactic Cycle.

SHIFTING FREQUENCY

Our frequency can be changed through the re-patterning that comes from using the 13 Moon/28-day calendar and the synchronic order. Learning the synchronic codes gives our present center of consciousness a new and constructive context to view events in our life and on the planet. Many memories are based on faulty perceptions due to living in an artificial timespace matrix. It is important to see the underlying synchronic web that weaves our lives and all life in the universe. In time, the energy of the vitalized harmonic focus of the synchronic order displaces the anomalies of the conditioned past. The synchronic order is a matrix of living intelligence; it is a fourth-dimensional order of reality based on the Law of Time. Welcome to the New Time!

DAY OUT OF TIME

White Rhythmic Mirror

Every year since 1992, a principle activity of the Planet Art Network has been to organize the Day out of Time/Planetary Peace Through Culture Festival. The Day out of Time, observed annually on July 25, is a day to celebrate Time as Art and to share universal love and forgiveness. The Planet Art Network is a worldwide organization dedicated to the dissemination of the 13 Moon calendar and the Law of Time. Help organize an event in your community! Visit www.planetartnetwork.info to find a Planet Art Network in your area.

"Where there is peace there is culture, where there is culture there is peace."

-Nicholas Roerich

BANNER OF PEACE

The three red spheres of the Banner of Peace represent the unity of art, science and spirituality. Red is the color of the life blood of the one human family. The red circle around the three spheres represents the cyclic nature of time.

In 1935 in Washington D.C., twenty-two nations signed the Roerich Pact created by Nicholas Roerich to declare Peace through Culture.

In 1995 the Planet Art Network - World Thirteen Moon Calendar Change Peace Movement adopted this banner as one of its official symbols.

THE 20 SOLAR SEALS AND 13 GALACTIC TONES

The 20 Solar Seals and 13 Galactic Tones describe processes of cosmic creation.

SEALS IN THE BODY, SEALS IN THE EARTH

The codes of natural time are contained in our bodies and in the Earth.

TONES AND RADIAL PLASMAS IN THE BODY

FIND YOUR GALACTIC SIGNATURE

Your galactic signature is your password into fourth-dimensional time. The day you were born on the 13 Moon calendar is coded by your Galactic Signature. Your Galactic Signature is one of the 260 different possibilities in the Harmonic Module/Tzolkin (shown on the back of this booklet).

By playing the role of your galactic signature, you allow yourself—your mind, body and spirit—to vibrate to that particular frequency and you broadcast it out to everyone around you. This is your gift to the world.

To find your Galactic Signature, follow the instructions below:

- I. What year were you born? Find the number next to the year you were born on the Year Tablet.
- 2. Take the Year Number you found and add it to the number next to the month you were born on the Month Tablet.
- 3. Now add the number of the day of the month that you were born. Example: If you were born on November 28, add 28. (Leap Days: If you were born on February 29 before noon local time, use February 28. If you were born after noon local time, use March 1)
- **4.** The total you have is the kin number of your Galactic Signature! (If the number you have is greater than 260 you need to subtract 260).
- 5. Look at the Tzolkin on the back of this booklet and find your kin number, this gives you your Solar Seal and Galactic Tone, which combined is your Galactic Signature!
- 6. The Galactic Signature is always read: "Color, Tone, Seal" Example: "Red Overtone Moon"
- 7. Now you can go to page 18 to cast your Code Spell!

CASTING THE CODE SPELL

Every day has a **Galactic Signature** (or Kin), a combination of a **Seal** and **Tone.** Using the formula below, you can construct the code spell for your own Galactic Signature or for the daily Galactic Signature. There are 260 code spells in all. Meditate on the code spell, see what messages and insights you might receive. **To find the code spell replace the red letters in the formula below** with the corresponding words in the tables. If the Galactic Signature's tone is 1, 6 or 11 (Magnetic, Rhythmic or Spectral) use the blue phrase below.

I A in order to B,
C D,
I seal the E of F,
With the G tone of H,

I am guided by the power of F (for Guide Seal, find the Guide on page 20)
(Or if the tone is 1, 6 or 11: "I am guided by my own power doubled")

On Galactic Activation Portal days, add the phrase: "I am a galactic activation portal enter me"

13 Tones	A	С	G	н

GUIDE TABLET

Every Kin has a Guide Seal.

For example, let's find the guide for Kin 26, White Cosmic Worldbridger:

Tone 13 (Cosmic)

I. Match the Seal and Tone of the day. Look for the Seal of the day in the far left "Seals" column of the Guide Tablet and match it with the corresponding Tone in the "Tones" columns.

Example: The horizontal Worldbridger row below the Tone 13 \simes shows the Dog. So the Guide Seal for White Worldbridger with Tone 13 is:

White Dog

The guides have the same tone as the day kin.

Example:

is guided by

White Cosmic Worldbridger

White Cosmic Dog

Note: The days with Tones I, 6 and II are guided by the same Seal.

Example:

is guided by

White Rhythmic Wizard

its "own power doubled"

The Violet Flame Soul Transmutation

Facilitated by Father Saint Germain

"I am the Violet Flame in action in Now,
I am the Violet Flame to light alone I bow;
I am the Violet Flame Shining every hour,
I am the Violet Flame in mighty cosmic power;
I am the Violet Flame blazing like a sun,
I am the Violet Flame freeing everyone."

I invoke the Violet Flame to Heal my Soul,
I invoke the Violet Flame to make me Whole;
I invoke the Violet Flame to dissolve my Grief,
I invoke the Violet Flame to purify my Belief;
I invoke the Violet Flame to consume my Pain,
I invoke the Violet Flame to dissolve my Shame;
I invoke the Violet Flame to dissolve my Hate,
I invoke the Violet Flame to clean my Slate;
I invoke the Violet Flame to consume my Fear,
I invoke the Violet Flame to dissolve my Tears;
I invoke the Violet Flame to heal my Hurt,
I invoke the Violet Flame to heal my Heart;
I invoke the Violet Flame to help me Forgive,
I invoke the Violet Flame to help me Live!

I AM THE VIOLET FLAME FOR ALL TO SEE!

I AM THE VIOLET FLAME THAT SETS ME FREE!

I AM THE VIOLET FLAME THAT HEALS MY SOUL!

I AM THE VIOLET FLAME THAT MAKES ME WHOLE!

I AM THE VIOLET FLAME TO HEAL THE EARTH!

I AM THE VIOLET FLAME OF SOUL REBIRTH!

Beloved Violet Flame | LOVE YOU (x3) Beloved Violet Flame | BLESS YOU (x3) Beloved Violet Flame | THANK YOU (x3)

"I invoke, decree & dream-awake with every breath that I breath the VIOLET FIRE transmuting my WHOLE being!" -Ascended Master Astarious Miraculli – Spirit Rap

The most fundamental, plus powerful, healing technique available on Earth is

the Violet Transmuting Flame or Violet Consuming Flame
facilitated by Father Saint Germain in this past century.

This gift has made it possible for hundreds and thousands of students to heal themselves
and progress through stages of soul evolution much more easily.

Jesus brought us this knowledge but was removed from us by those who knew that this
knowledge, if applied, would set us free.

Step 1. Pour your Love to your presence. Ask your presence to draw the Violet Flame from its electronic body (etheric double) and from the great central Sun.

You I am presence has divine authority to do so.

Step 2. Now turn your attention to the Mighty Saint Germain. Pour your love to him in his Violet
Flame temple in the 5th dimension of the Earth. If possible hold an image of Saint Germain and his
temple. Call on Saint Germain to pour the Violet Flame in through and around you.
You can also call on the assistance of Arcturus, Archangel Zadkiel and the God and Goddess of Purity.

Step 3. Turn to face the Violet planet, a Sun out in space, ruled by Arcturus. These great beings have been working with a dispensation to assist us in connecting with the Violet Flame and to strengthen the stream of our consciousness to begin to feel it.

Keep your attention on the Violet planet for 3 minutes.

Invoke the flame to come into every condition of our life to change it into a miracle of LOVE, where there is no absence of light, no absence of intelligence and only God's perfection!

Heptocubic Structure

Showing internal structure, central structure and central cube with three higher dimensional planes – The Heptagon of Mind. When these three planes explode they become the six sides of the cube held together by the seventh point in the center; when the seventh point explodes, then each of the six faces becomes another cube, with the seventh at the center. This is the new coordinating mechanism of the superhuman, the homo noosphericus.

Imagine the different sensory octaves creating a synaesthetic symphony. Through this symphony information is received—information of another kind that allows us to operate in the cosmos in a new way.

APPLICATION - HOLOMIND

HOLOMIND PERCEIVER (HMP) is a function of the 441 Matrix Synchronotron. It is a "chip" of the 7th mental sphere demonstrating the radialization of consciousness. The HMP has different parts/functions radialized equal through the 4 quadrants and 9 time dimensions.
